

EU-LIFE is the alliance of leading independent research institutes in the life sciences across Europe

EU-LIFE MISSION AND COMMUNITY

Contributing to European science policies, strongly advocating the key role of excellent research for innovation, competitiveness and the society.

Fostering an environment that stimulates excellence in research through shared best practices and expertise in research governance.

Inspiring institutions to support ethically responsible research and innovation, open science and knowledge transfer and valorisation.

* Task Forces:
Indicators & Publications, Office & Lab Space, Policy, Postdoc Initiative, Research Infrastructures, Sustainability and Cibersecurity

EU-LIFE IN RESEARCH & INNOVATION POLICY

Actively engaged in EU policies on:

- Multiannual EU Framework Programmes for Research & Innovation: H2020, Horizon Europe, FP10
- European Research Council (ERC)
- European Innovation Council (EIC)
- Marie Skłodowska-Curie Actions (MSCA)
- Health research
- Research infrastructures
- Research assessment
- Research careers
- Knowledge valorization
- Open science & responsible research
- New Approach Methodologies (NAMs) & animal research

Member of the European Research Area (ERA) Forum representing Research Performing Organizations

EU-LIFE researchers participate in **EU advisory boards and expert panels**, such as:

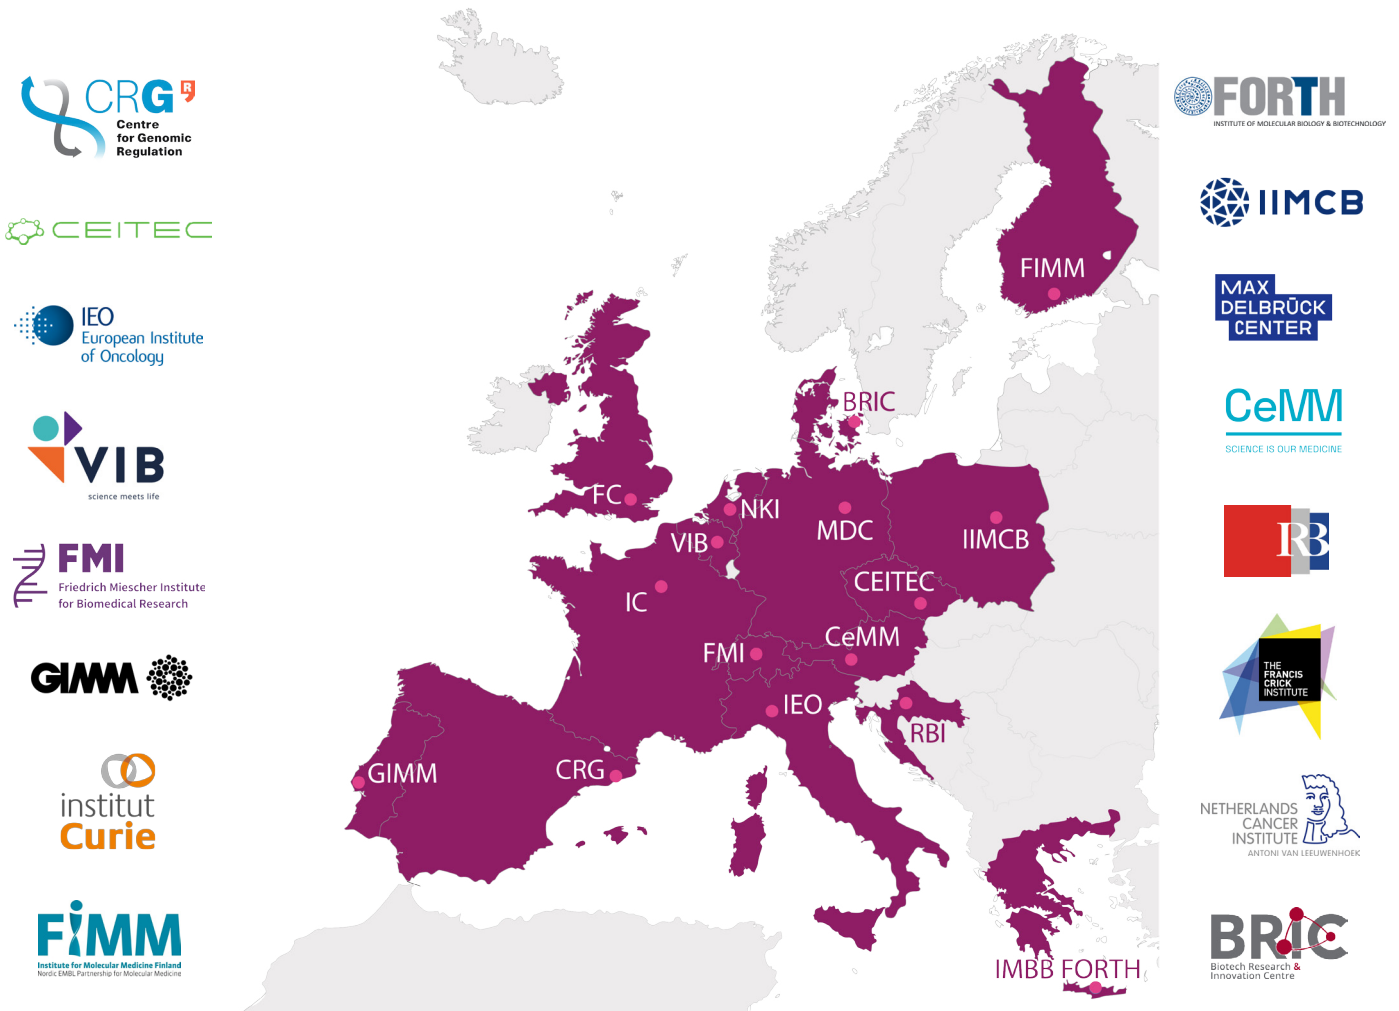

We are the voice of research institutes

EU-LIFE MEMBER INSTITUTES

16 institutes in **16** countries
>11.000 members of staff
>600 research groups

c. 200 technology facilities
>80 spin-offs fostered since 2014
>30% success rate in ERC

Examples of impact areas

- POTENTIAL SOLUTIONS FOR ANTIBIOTIC RESISTANCE
 - VACCINES
- NOVEL ANTICANCER IMMUNOTHERAPIES
 - PRECISION MEDICINE
- PREVENTION OF CHRONIC DISEASES
 - SUSTAINABLE AGRICULTURE
- AI TOOLS & ALGORITHMS FOR LIFE SCIENCES
